

FOOD SUPPLEMENT

Vitamin formula

Vitamin B5 is a precursor of coenzyme A, a cofactor in various metabolic processes that contribute to normal energy-yielding metabolism. It is partly because of this that this product contributes to the alleviation of fatigue and tiredness.

COMPOSITION PER COATED TABLET

Vitamin B5	500 mg	8333%
------------	--------	-------

* Reference Intake

Food supplements should not be used as a substitute for a varied and balanced diet and healthy lifestyle.
